Support at the heart of it all

Prioritize preventive care

Regular preventive care is covered at 100% by your health plan when you see a network provider.*

Covered preventive services include:

- An annual exam
- Cancer screenings
- Cholesterol and blood pressure screenings
- Immunizations – including flu shots
- Pap tests and mammography for women

Ways to make the most of your visit

- **Plan ahead.** Write down any symptoms, concerns or questions so you don't forget.
- **Listen carefully.** Be sure you understand what your doctor is telling you. Ask for written instructions, if needed.
- **Take someone with you.** They can take notes and help you remember what was said.

These services may be based on your age and other health factors. Other routine services may be covered under your plan, and some plans may require copayments, coinsurance or deductibles for these benefits.
